DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 9, 10 and 11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hogan et al.

Hogan et al discloses an apparatus and is capable of performing the method of dispensing liquid material wherein the pressure of the air is varied to move the liquid material in a desired pattern.

Allowable Subject Matter

3. Claims 3-8, 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Crane et al and Boger show liquid dispensing devices with air pattern control.
